

# Protect Your Business from Digital Threats

Your network is vulnerable to internal and external threats:

- Loss of System Stability
  - *Viruses, Worms, Trojans*
  - *Malware & Spyware*
- Loss of Productivity
  - *Unauthorized web access by employees*
  - *Unauthorized downloading (P2P, Torrents)*
  - *Spam*
- Loss of Database Confidentiality
  - *Intrusions*
  - *Data leakage by employees*

All-in-one  
Protection

Gateway  
Solution

Antivirus  
Antispyware  
Antispam
