

Wi-Fi Networks for Offices: Fast, Secure, Scalable!

No Cabling
Mess

No Wall
Hacking

Freedom
of Mobility

Quick & Clean
Installation

Benefits:

- Network your entire office without the need for expensive and disruptive cabling work
- Save money on purchasing multiple-port network switches for all your PCs.
- Make full use of your notebook computers during boardroom meetings.
- Simply add another Wireless Router to create additional networks, perfect for providing customers and business associates with internet connectivity during meetings.
- Entire setup in a matter of hours with minimal interruption to your work.

Get your office networked *hassle free* and for a *fraction* of the cost!
